RURAL COMPETITIVENESS DEVELOPMENT PROGRAMME of the Ministry of Finance and Treasury of Bosnia and Herzegovina

1. Introduction

1.1 Objectives of the Project

The State of Bosnia and Herzegovina (the “State”), through its Ministry of Finance and Treasury, obtained Loan from the International Fund for Agriculture Development (IFAD).

The Federation of Bosnia and Herzegovina (“FB&H”) and Republika Srpska (“RS”) have agreed to carry out the Rural Competitiveness Development Programme (the “Project”) and agreed subsidiary agreements with the State.

The goal of the Programme will be to contribute to sustainable rural poverty reduction in BiH. The Programme development objective is to enable smallholders to take advantage of fruits, vegetable, non-timber forest products and other potential subsector development for the sustainable improvement of their social and economic conditions and those of other poor rural groups.

Programme area: The Programme will be implemented at national level through value chain clusters. Initially, twelve clusters have been pre-identified thus constituting the project area for its first cycle. Given the focus on supporting the most vulnerable groups (poor farmers, women and youth) the project will foster the inclusion of poor municipalities in the context of larger municipal clusters. Typically, these municipalities will either be close to the areas currently active in the selected value chains or municipalities where important ‘poverty pockets’ still subsist. Clusters will be identified on the basis of common characteristics in terms of socio-economic and institutional potential.

Target group: The programme will reach out to three target groups: the **very poor, poor and borderline poor**, by analysing their specific constraints and challenges to access selected sub-sectors and in particular the constraints faced by **women** and **youth**. The targeting strategy and efforts will respond to these challenges with specific enabling measures. The programme will target poor, non-commercial farmers that are not yet (or insufficiently) linked to market while support their insertion in rewarding supply chains in order to become competitive commercial farmers. Direct beneficiaries will be rural poor, both women and men, young and adults, organized in Producers’ Associations (PAs) and cooperatives active in selected value chains (VCs).

1.2 Components and activities of the Project

The project consists of the following components:

1. Enabling Environment for Inclusive Subsector Development
2. Sustainable inclusion of smallholders in the thriving/successful value chains
3. Project Management

Component 1: Enabling Environment for Inclusive Subsector Development

The **Outcome** of Component 1 will be: “The improved policy and institutional environment attracts smallholders and investors to the selected subsectors.” Five elements of the subsector development approach of the Programme will be implemented through the component: (i) subsector governance by all concerned private and public stakeholders through consultations and joint strategic planning of interventions; (ii) developing relevant institutions’ capacities in the subsectors to ensure adequate supply of specialized services; and (iii) an enabling policy framework in order to tackle the related trade, policy and institutional issues and promote local economic development, (iv) subsector performance monitoring and accountability, and (v) strengthening relevant institutions capacities.

RURAL COMPETITIVENESS DEVELOPMENT PROGRAMME of the Ministry of Finance and Treasury of Bosnia and Herzegovina

1. Introduction (continued)

The expected results are the following: (i) stakeholder's platforms at cluster level and subsector level improve value chain coordination and subsector governance, orient public policies and investments in order to warrant long term subsector competitiveness; and (ii) appropriate technical and business development services are made available at local and entity level.

Public funds will be used to leverage investments from the private sector in a win-win partnership allowing agribusinesses to expand their activities and a higher number of small-scale producers to expand their production while improving its profitability. As part of the efforts to create an enabling environment for inclusive and sustainable subsector development, the Programme will help to ensure adequate supply of specialized support services, public and private.

Component 2: Sustainable inclusion of smallholders in the thriving/successful value chains

The Outcome of Component 2 will be the “Sustainable inclusion of poor smallholders and vulnerable groups in selected subsectors” The expected results are the following: (i) inclusive business proposals developed and implemented; and (ii) very poor and poor farmers, women and youth have successfully integrated into competitive and rewarding value chains.

This Component is intended to: (i) help improve the livelihood of small scale producers and poor collectors through sustainable and profitable farming; (ii) consolidate their organisations and their capabilities to identify forthcoming business opportunities (in terms of markets, marketing channels, new products etc.) to expand their business; and (iii) have a voice and play an active role in the multi-stakeholders coordination platforms, both at cluster level and at subsector level. The Programme will take advantage of existing value chain dynamics in selected value chains in which the private sector (i.e. agro input dealers, collectors, processors, traders, wholesalers, retailers) is actively engaging with smallholders, either organised or individually.

Business Proposals (BPs), allowing business partners (producers and agribusiness) to plan, coordinate and carry out mutually benefiting investments, will be one of the main Programme instruments under Component 2. The BP will be the main instrument of the business partners (small-scale producers and collectors and their organisations, agribusiness companies) to foster the sustainable development of their joint businesses in the selected sub-sectors and value chains. BPs will also frame partners' needs in terms of capacity development and the part of the investments to be addressed by public (project) funds.

Component 3: The Project Management, Monitoring and Evaluation Component would finance all the incremental costs of project management, coordination, monitoring and evaluation by the existing Agriculture Project Coordination Unit.

**RURAL COMPETITIVENESS DEVELOPMENT PROGRAMME
of the Ministry of Finance and Treasury of Bosnia and Herzegovina**

1. Introduction (continued)

1.3. Financing of the Project

The Project is financed by:

- a) IFAD Loan No. 2000001440
- b) IFAD Grant No. 2000001441
- c) Government, and
- d) Beneficiaries.

1.3.1. IFAD Loan Agreement 2000001440

The State is the borrower of the International Fund for Agricultural Development (IFAD) Loan No. 2000001440, amounting to EUR 11,120,000.

In accordance to terms of subsidiary finance agreement between the State and RS, funds of the equivalent of EUR 4,680,000 have been lent to RS.

1.3.2. IFAD Grant Agreement No. 2000001441

IFAD Grant No 2000001441 allocations for B&H are EUR 470,000

In accordance to terms of subsidiary finance agreement between the State and RS, funds of the equivalent of EUR 200,000 have been granted to RS.

**RURAL COMPETITIVENESS DEVELOPMENT PROGRAMME
of the Ministry of Finance and Treasury of Bosnia and Herzegovina**

1. Introduction (continued)

1.3 Financing of the Project (continued)

Categories of cost items to be financed out of the proceeds of the Loan, the allocation of the amounts of the Loan to each category and the percentage of expenditure for cost items so to be financed in each category are as follows:

Item	Amount of the Loan allocated (in EUR)	Amount of the Grant allocated (in EUR)	% of expenditure to be financed
1. Goods, services and inputs	3,620,000		100% net of tax and Government and beneficiaries contribution
2. Consultancies	345,000	200,000	100% net of tax and Government and beneficiaries contribution
3. Operating costs	480,000		100% net of taxes
Unallocated	235,000		
Total	4,680,000	200,000

2. Independent Auditor's Report

To the State of Bosnia and Herzegovina,
Ministry of Finance and Treasury
Attn. of Minister of Finance and Treasury H.E. Mr. Vjekoslav Bevanda

Report on the Project Financial Statements

Opinion

We have audited the accompanying project financial statements of the Republika Srpska part of the Rural Competitiveness Development Programme (the "Project"), which comprise of Summary of sources and uses of funds, Balance sheet, Designated account, Local bank account, Statement of loan and grant withdrawals as of and for the year ended 31 December 2021, and a summary of significant accounting policies and other explanatory notes for the year then ended, financed under IFAD Loan Agreement No. 2000001440 and IFAD Grant Agreement No. 2000001441.

In our opinion, the accompanying project financial statements present fairly, in all material aspects, the financial position of the Project as of 31 December 2021, and of the funds received and disbursed during the year then ended, in accordance with the cash basis of accounting based on International Public Sector Accounting Standard ("IPSAS"), as described in Note 4.1.

Basis for Opinion

We conducted our audit in accordance with International Standards on Auditing (ISAs) and the International Fund for Agricultural Development Guidelines for Project Audits ("IFAD Guidelines"). In conducting audit we were also guided by the Bank's financial reporting and auditing requirements, Disbursement Guidelines for Investment Project Financing, the Loan Handbook for World Bank Borrowers and the World Bank's Procurement Framework. Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are independent of the Ministry of Finance and Treasury in accordance with the International Ethics Standards Board for Accountants Code of Ethics for Professional Accountants (IESBA Code) together with the ethical requirements that are relevant to ethical responsibilities in accordance with these requirements and the IESBA Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Responsibilities of Management and Those Charged with Governance for the Project Financial Statements

The management of project coordination unit is responsible for the preparation of these project financial statements in accordance with the cash basis of accounting based on IPSAS, as described in Note 4.1., and for such internal control as management determines is necessary to enable the preparation of project financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Project's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Project or to cease operations or has no realistic alternative but to do so. Those charged with governance are responsible for overseeing the financial reporting process.

Responsibilities for the Audit of Financial Statements

Our objectives are to obtain reasonable assurance about whether the project financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with ISAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements. As part of an audit in accordance with ISAs, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the project financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Project's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Project's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Project to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the project financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Report on other requirements

In addition, with respect to the Statement of Expenditure, adequate documentation supporting Disbursement Linked indicators or Performance Based Conditions and underlying expenditures have been maintained to support claims for reimbursements of expenditure occurred, and such expenditures were eligible and incurred for the purpose intended under IFAD Loan Agreement No. 2000001440, IFAD Grant Agreement No. 2000001441. In addition, in our opinion, the accompanying designated account statements present fairly, in all material aspects, the funds received and disbursements made from the designated accounts of the Project for the year ended 31 December 2021, in accordance with the basis of accounting described in Note 4.1.

**RURAL COMPETITIVENESS DEVELOPMENT PROGRAMME
of the Ministry of Finance and Treasury of Bosnia and Herzegovina**
Project financial statements for the year ended 31 December 2021

(all amounts in EUR, unless otherwise stated)

4. Notes to the project financial statements

4.1 Basis of preparation and accounting records

These project financial statements have been prepared on the cash basis of accounting based on International Public-Sector Accounting Standards issued by the Public-Sector Committee of the International Federation of Accountants, and incorporate the accounting policies below, which have been consistently followed in all material respects.

4.2 Accounting policies

The Project's fiscal year is 1 January to 31 December for the recording of all transactions.

Cash basis of accounting

All receipts and expenses under IFAD Loan are recorded on actual receipt and payment basis of accounting as per approved categories.

Project expenditure is stated at original cost on the Balance sheet

Direct payments

Direct payments concern the amounts paid directly from the IFAD Loan account.

Statement of Expenditure (SoE)

Statements of Expenditure are used to state the expenditure under IFAD Loan during a certain period. These statements are sent to the IFAD disbursement specialist who authorises the payment of the expenditure through the Designated account.

Currency conversions

The reporting currency is Euro (EUR). Sources and use of funds (payments to suppliers and contractors) in currencies other than EUR have been converted to EUR using the currency rate at the moment of the transaction.

Bank balances, recorded on the Balance sheet at year-end, have been converted at year-end rate.

Designated account

This is the total amount of the withdrawals from the IFAD Loan account for the Project. IFAD Loan account is in EUR.

Local bank accounts

This concerns bank accounts at local banks (other than Designated account) in EUR and BAM translated at the exchange rate at the date of the balance sheet.

**RURAL COMPETITIVENESS DEVELOPMENT PROGRAMME
of the Ministry of Finance and Treasury of Bosnia and Herzegovina**
Project financial statements for the year ended 31 December 2021

(all amounts in EUR, unless otherwise stated)

4. Notes to the project financial statements (continued)

4.2 Accounting policies (continued)

Other income

Other income includes interest earned on cash funds at the bank accounts, income from tender documentation sold and received bidding fees.

Interest on Designated accounts

Interest earned on the Designated accounts belongs to the Borrower.

Interest on local bank accounts

Interest earned on the local bank account used for the payments from IFAD Loan funds belongs to the Borrower; interest earned on the local bank accounts used for the payments from Government and Beneficiaries contribution is treated as additional source of financing of the Project.
