DRINA FLOOD PROTECTION PROJECT
of the Ministry of Finance and Treasury of Bosnia and Herzegovina

1. Introduction

1.1 Objectives and activities of the Project

The Project objective of the Drina Flood Protection Project (the "Project") is to provide increased protection from flood events to agricultural and commercial interests and communities in the Project area.

The main activities include strengthening flood protection on the Drina River in the Bijeljina area near the confluence with the Sava River, including Project management support and institutional strengthening, through the provision of works, goods, consultants services, Training and Incremental Operating Costs.

1.2 Components of the Project

The Project is comprised of the following two components:

Component 1: Flood Protection Works

The main activities include strengthening flood protection on the Drina River in the Bijeljina area near the confluence with the Sava River.

Component 2: Project Management and Institutional Strengthening

The main activities include Project management support and institutional strengthening, through the provision of works, goods, consultants services, Training and Incremental Operating Costs.

1.3 Financing of the Project

1.3.1 IDA Credit No. 5444-BA

The State of Bosnia and Herzegovina ("B&H") is the borrower of the International Development Association (IDA) Credit No. 5444-BA amounting to the equivalent of XDR 15,600,000.

Under the terms of a subsidiary finance agreement between B&H and RS, funds of the equivalent of XDR 8,970,000 have been lent to RS.

Categories of cost items to be financed out of the proceeds of the Credit, the allocation of the amounts of the Credit to each category and the percentage of expenditure for cost items so to be financed in each category are as follows:

Item	Amount of the Credit allocated (in XDR)	% of expenditure to be financed
(2) Goods, works, non-consulting services, consulting services, training and incremental operating costs for Part A of the Project	8,970,000	100%
Subtotal	8,970,000	

IDA Credit No. 5444 - BA became effective on 21 May 2015. Planned closing date was 31 December 2019.

DRINA FLOOD PROTECTION PROJECT
of the Ministry of Finance and Treasury of Bosnia and Herzegovina

2. Introduction (continued)

The World Bank canceled an amount of the Credit equal to 1,249,003 million SDRs as of 30 April 2019. The new revised withdrawal table is as follows:

Item	Amount of the Credit allocated (in XDR)	% of expenditure to be financed
(2) Goods, works, non-consulting services, consulting services, training and incremental operating costs for Part A of the Project	7,720,997	100%
Subtotal	7,720,997	

IDA Credit No. 5444 - BA became effective on 21 May 2015. Planned closing date is 31 December 2020.

2. Independent Auditor's Report

To the State of Bosnia and Herzegovina,
Ministry of Finance and Treasury
Attn. of Minister of Finance and Treasury H.E. Mr. Vjekoslav Bevanda

Report on the Project Financial Statements

Opinion

We have audited the accompanying project financial statements of the Republika Srpska part of the Drina Flood Protection Project (the "Project"), which comprise of Summary of sources and uses of funds, Balance sheet, Designated account statement, Statement of loan withdrawals as of and for the year ended 31 December 2019, and a summary of significant accounting policies and other explanatory notes for the year then ended, financed under IDA Credit No. 5444 - BA.

In our opinion, the accompanying project financial statements present fairly, in all material aspects, the financial position of the Project as of 31 December 2019, and of the funds received and disbursed during the year then ended, in accordance with the cash basis of accounting based on International Public Sector Accounting Standard ("IPSAS"), as described in Note 4.1.

Basis for Opinion

We conducted our audit in accordance with International Standards on Auditing (ISAs) and "Guidelines: Annual Financial Reporting and Auditing for World Bank – Financed Activities" issued by FMSB. Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are independent of the Ministry of Finance and Treasury in accordance with the International Ethics Standards Board for Accountants Code of Ethics for Professional Accountants (IESBA Code) together with the ethical requirements that are relevant to ethical responsibilities in accordance with these requirements and the IESBA Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Responsibilities of Management and Those Charged with Governance for the Project Financial Statements

The management of project coordination unit is responsible for the preparation of these project financial statements in accordance with the cash basis of accounting based on IPSAS, as described in Note 4.1., and for such internal control as management determines is necessary to enable the preparation of project financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Project's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Project or to cease operations or has no realistic alternative but to do so. Those charged with governance are responsible for overseeing the financial reporting process.

Responsibilities for the Audit of Financial Statements

Our objectives are to obtain reasonable assurance about whether the project financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with ISAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with ISAs, we exercise professional judgment and maintain professional scepticism throughout the audit. We also: identify and assess the risks of material misstatement of the project financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Project's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Project's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Project to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the project financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Report on other requirements

In addition, with respect to the SoE withdrawal schedule, adequate supporting documentation has been maintained to support claims to the World Bank for reimbursements of expenditure incurred; and all expenditure included in withdrawal applications and reimbursed against are eligible for financing under the project.

4. Notes to the project financial statements

4.1 Basis of preparation and accounting records

These project financial statements have been prepared in accordance with the International Public Sector Accounting Standard: "Financial Reporting under the Cash Basis of Accounting" issued by the Public Sector Committee of the International Federation of Accountants, and incorporate the accounting policies below, which have been consistently followed in all material respects and comply with the "Guidelines: Annual Financial Reporting and Auditing for World Bank – Financed Activities", issued by the Financial Management Sector Board.

4.2 Accounting policies

The Project's fiscal year is 1 January to 31 December for the recording of all transactions.

Cash basis of accounting

All receipts and expenses under IDA Credit are recorded on actual receipt and payment basis of accounting as per approved categories.

Project expenditure is stated at original cost on the balance sheet.

Direct payments

Direct payments concern the amounts paid directly from the Credit account of the World Bank.

Statement of Expenditure (SoE)

Statements of Expenditure are used to state the expenditure under IDA Credit during a certain period. These statements are sent to the World Bank's disbursement specialist who authorises the payment of the expenditure through the Designated account.

Currency conversions

The reporting currency is Euro (EUR). Sources and use of funds (payments to suppliers and contractors) in currencies other than EUR have been converted to EUR using the currency rate at the moment of the transaction.

Bank balances, recorded on the balance sheet at year-end, have been converted at year - end rate.

Designated accounts

This is the total amount of the withdrawals from the Credit account for the Project. The Credit account is in XDR.

Interest on Designated accounts

Interest earned on the Designated accounts belongs to the Borrower.
