BANKING SECTOR STRENGTHENING PROJECT

of the Ministry of Finance and Treasury of Bosnia and Herzegovina

1. Introduction

The World Bank - International Bank for Reconstruction and Development (IBRD) will provide a credit to the Bosnia and Herzegovina Banking Sector Strengthening (BSSP). The Credit proceeds will be passed onto Federation of Bosnia and Herzegovina (FBiH) and Republic Srpska (RS) under Subsidiary Credit Agreements, with terms and conditions satisfactory to IBRD. The agencies responsible for implementation of the Banking Sector Strengthening Project are Federal Ministry of Finance (FMF) for Part A of the Project through its Project Implementation Team (PTU). PTU shall be responsible for the day-to-day implementation, coordination, including procurement and financial. The Financial Manual is to help the SPI financial staff and management improve the financial management of the Project financed by the World Bank. The fundamental aim is therefore to improve project management. It is also to promote improved compliance with Operational Policies and Bank Procedures on financial management and to facilitate the use of a new method of disbursement introduced by the World Bank, which uses periodic Interim Un-audited Financial State (IFRs) as a basis for disbursement.

1.1 Objectives of the Project

The objective of the Project is support to implementation of the key reforms in the financial sector of Federation BiH identified in the Mid-term Reform Agenda for BiH, the FBA Action Plan for implementation of the Financial Sector Assessment Programme (FSAP) and in special requirements for WB assistance.

The Project Development Objective is to improve the soundness of the banking sector by enhancing bank regulation, supervision and resolution capacity and by enhancing the governance of the FBiHDB.

1.2 Components and activities of the Project

Project components shall be the following:

1. Strengthening, regulation and supervision aligned with the Basel III regime, tailored to the level of development of the banking sector (hereinafter referred to as: *Component 1* of the Project),
2. Addressing weaknesses in the banking sector (hereinafter referred to as: *Component 2* of the Project),
3. Operationalizing the new bank resolution framework (hereinafter referred to as: *Component 3* of the Project),
4. Improving governance and business model of entity development banks (hereinafter referred to as: *Component 4* of the Project), and
5. Provision of additional technical assistance in the achievement of the objective of the Project (hereinafter referred to as: *Component 5* of the Project).

Component 1 of the Project has as its objective the provision of support to the FBA in the following:

- 1) Further strengthening of capital and liquidity requirements to enhance banks' ability to withstand solvency and liquidity shocks,
- 2) Introduction of a risk appetite framework and internal capital adequacy assessment process (hereinafter referred to as: ICAAP), through the implementation of Pillar 2 of Basel III, which aims to enhance the link between an institution's risk profile, its risk management and its capital planning,
- 3) Develop new revised supervisory risk-based methodologies for supervisory risk review and evaluation process (hereinafter referred to as: SREP methodology) aligned with the European Union standards, aimed at enhancing transparency and harmonization of supervisory review processes.

BANKING SECTOR STRENGTHENING PROJECT
of the Ministry of Finance and Treasury of Bosnia and Herzegovina

1.2 Components and activities of the Project (continued)

Component 2 of the Project has as its objective the provision of support to the FBA in the following:

- 1) Improvement and performance of asset reviews in banks (hereinafter referred to as: AQR) and the launch of the 2017 AQRs of in the remaining banks in Federation BiH, and
- 2) Adoption of adequate programmes for resolving problems in banks, on the basis of results of asset quality reviews, either by mandatory time bound corrective action programs or resolution/liquidation programs for all under-capitalized banks.

Component 3 of the Project has as its objective the provision of support to the FBA in the implementation of the legal framework that regulates bank resolution, specifically in the following:

- 1) Preparation and adoption of a key set of bylaws and decisions that regulate bank recovery and resolution,
- 2) Establishment and operationalization of the Bank Resolution Unit within the FBA and
- 3) Adoption of an internal assessment methodology for recovery plans and subsequent assessment of recovery plans to be submitted by all banks to the FBA.

Component 4 of the Project has as its objective the provision of support to the FBIHDB in the following:

- 1) Definition and adoption of the FBiH Government's statement on future development of the FBIHDB,
- 2) Adoption of the FBIHDB business plan, and
- 3) Alignment of the FBIHDB's risk management organization, reporting lines, and policies and procedures with those required for FBA-regulated banks.

The institutions involved in the Project shall be the Ministry, FBA, and FBIHDB, whose obligations and duties are defined under the Implementation Agreements concluded between the Ministry and those institutions. Ministry shall be under obligation to cooperate with the Team, and to ensure the corresponding staff related and tangible preconditions and expert assistance to the members of the Team for the purpose of efficient achievement of results of the Project. The team members from the FBA and FBIHDB shall be under obligation to establish and manage individual records on technical assistance provided and ensured within the framework of the loan.

The Ministry, as the authority responsible for the Project, shall be responsible for the following:

- 1) The overall implementation of the Project and coordination of activities with the FBA and FBIHDB,
- 2) Establishment of the Team, and
- 3) Monitoring the realization of disbursement indicators (Attachment 2 – Disbursement Indicators) and submitting evidence on meeting the disbursement indicators (Attachment 3 – Verification Protocols).

The Ministry shall undertake all necessary or appropriate measures in order to ensure that the FBA and FBIHDB are performing their tasks in compliance with the provisions of the corresponding legal agreements and that they are not undertaking any measure that might prevent or disrupt such performance and achievement of objective of the Project. The FBA shall be under obligation to inform the Team regularly, and at least once a month, through appointed persons, on the pace and the degree of realization of activities under Components 1, 2 and 3 of the Project.

BANKING SECTOR STRENGTHENING PROJECT

Independent Auditor's Report

To the State of Bosnia and Herzegovina,
Ministry of Finance and Treasury
Attn. of Minister of Finance and Treasury H.E. Mr. Vjekoslav Bevanda

Report on the Project Financial Statements

Opinion

We have audited the accompanying project financial statements of the Federation part of the Banking Sector Strengthening Project (the "Project"), which comprise of Summary of sources and uses of funds, Balance sheet, Designated account, Statements of loan withdrawals as of and for the year ended 31 December 2020, and a summary of significant accounting policies and other explanatory notes for the year then ended, financed under IBRD Credit 8741-BA.

In our opinion, the accompanying project financial statements present fairly, in all material aspects, the financial position of the Project as of 31 December 2020, and of the funds received and disbursed during the year then ended, in accordance with the cash basis of accounting based on International Public Sector Accounting Standard ("IPSAS"), as described in Note 4.1.

Basis for Opinion

We conducted our audit in accordance with International Standards on Auditing (ISAs) and "Guidelines: Annual Financial Reporting and Auditing for World Bank-Financed Activities" issued by FMSB. In conducting audit, we were also guided by the Bank's financial reporting and auditing requirements, Disbursement Guidelines for Investment Project Financing, the Loan Handbook for World Bank Borrowers and the World Bank's Procurement Framework. Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are independent of the Ministry of Finance and Treasury in accordance with the International Ethics Standards Board for Accountants Code of Ethics for Professional Accountants (IESBA Code) together with the ethical requirements that are relevant to ethical responsibilities in accordance with these requirements and the IESBA Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Responsibilities of Management and Those Charged with Governance for the Project Financial Statements

The management of project implementation unit is responsible for the preparation of these project financial statements in accordance with the cash basis of accounting based on IPSAS, as described in Note 4.1., Guidelines: Annual Financial Reporting and Auditing for World Bank-Financed Activities, and for such internal control as management determines is necessary to enable the preparation of project financial statements that are free from material misstatement, whether due to fraud or error. In preparing the financial statements, management is responsible for assessing the Project's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Project or to cease operations or has no realistic alternative but to do so. Those charged with governance are responsible for overseeing the financial reporting process.

Responsibilities for the Audit of Financial Statements

Our objectives are to obtain reasonable assurance about whether the project financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with ISAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with ISAs, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the project financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Project's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Project's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Project to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the project financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Report on other requirements

In addition, with respect to the Statement of Expenditure, adequate documentation supporting Disbursement Linked Indicators or Performance Based Conditions and underlying expenditures has been maintained to support claims for reimbursements of expenditures occurred and such expenditure were eligible and incurred for the purpose intended under IBRD Credit 8741-BA. Also, respective reports issued during the period were in agreement with the underlying books of account.
