Project implemented by Consortium led by ECG

## ***Round Table Meeting “Public Finance Management in BiH - Strategic Planning, Budgeting and Public Investments”: Inputs by Strengthening Public Debt Management Capacity Bosnia and Herzegovina Project***

### ***Project Background***

Specifically tailored to provide direct assistance to the three ministries of finance of the Bosnia and Herzegovina, Federation Bosnia and Herzegovina, and Republic of Srpska, plus Brcko District Directorate for Finance;

Primarily focused on building capacity of civil servants working in sectors related to financial planning, budgeting and debt management -- planning and management of public debt, as well as, techniques of risk management assessment

### ***Overall Objective***

Improve the efficiency, effectiveness and transparency in the expenditure of public funds through improved public debt management and therefore the capacity of public financial management as a whole

### ***Project Purpose***

Build sustainable capacities in the Debt Management Administration for financial planning, budget accounting, reporting and public debt management

### ***The Project has two components:***

Component 1: Improving knowledge on public debt management in all there finance ministries

Component 2: Detailed analysis of the needs for further improvement of the debt management processes at all levels of government

The outputs of the project include provision of extensive training and on the job assistance.

**Our successful work together would help Bosnia and Herzegovina to make another step on its path to the European Union!**
